

# Bottle Caps and Closures

---

## Plastic bottle closures

They come in a variety of sizes, colors, and shapes. They also offer unique characteristics like ease of use, dispensing, leak resistance, and impact resistance.

## Plastic Pump Closures

Pump closures can be fitted to both small and large containers and can be used for high viscosity applications.

## Metal caps and closures

We supply most with the container but, they are also available in a variety of sizes and usually come in three colors: white, black, silver and if needed gold. They are the preferred closure for a variety of container products and can be used for branding as well.

## Metal Cap Liners

Liners can for protection against chemicals or as act as a moisture barrier.

## Black Metal Foil Lined Caps

The black metal closures with a foil liner are offered in a wide range of sizes.

## White Metal Pulp/Poly Lined Caps

The white metal caps are offered with a pulp/poly liner. The pulp/poly liner is a good liner type for chemical resistance, mild acids, alkalis, solvents, alcohols, oils, and aqueous products.
