

Paint cans and accessories are available in metal or plastic with a variety of inside finishes including epoxy lined and unlined. For industrial size metal alternatives,

Triple Grip Clips

A light tap with a hammer and screwdriver locks Clips in place. To remove clips, simply use pliers. Clips meet US Postal service regulations and are required by UPS for hazardous material shipments.

Ringlok & Other Overseals

Ringlok® is an industry standard, exceeding pressure differential testing requirements for shipping liquids by air under IATA, national, and carrier requirements. Made of a slightly harder plastic for less distortion and easier automated or manual application.

We also stock several other overseals for compliant shipments of hazardous materials and dangerous goods.
