

Consolidated Container helps you choose the right packaging and our knowledgeable experts can assist you in determining what UN specification packaging is need to comply with current regulations.

4G Packaging

All of our 4G fiberboard packaging shippers are available as kits with their respective paint cans or plastic jugs, or sold separately as individual components. 4G fiberboard packaging shippers meet DOT and ICAO/IATA combination packaging criteria, including:

- hydraulic pressure differential tests
- water absorption
- drop tests
- stack tests, and vibration tests

Vermiculite

It comes in bulk or 4 cu ft bags 25 per skid/pallet- coarse grade. Vermiculite is a chemically inert, loose absorbent used for liquid spills and can be packaged for cushioning and product protection. Environmentally friendly and asbestos-free, this product meets the full regulatory requirements.

Hazardous materials definitions and procedures

Clean Up Requirements

www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=standards&p_id=9765

Clean-up operations required by a governmental body, whether Federal, state local or other involving hazardous substances that are conducted at uncontrolled hazardous waste sites (including, but not limited to, the EPA's National Priority Site List (NPL), state priority site lists, sites recommended for the EPA NPL, and initial investigations of government identified sites which are conducted before the presence or absence of hazardous substances has been ascertained

Transport
