## Covers and Accessories

---

### Elastic Covers

Weather-resistant cover 4 mil thick with 1/2" elastic band helps keep dirt and grime out of container. Fits drums and containers from 18" to 30" diameter. Perfect for deformed drums where molded covers won't fit. Elastic properties conform to the shape of the drum or container. Sold in cases of 100.

### Poly Drum Topper

Our Drum Topper snaps directly onto any 55 gallon open or closed head drum to keep debris out and protect drum tops. Black in color, also available in yellow by special order.

### Rigid Covers

Rigid-tough FDA approved polyethylene covers for steel, plastic or fiber drums. One piece molded, no seam or joints to catch dirt or harbor bacteria. Covers are complete flat across the top and a 1-1/2" protective flange secures protection. Covers are loose fitting

### Strainers

EZ-Strainers™ are great for keeping unwanted particles out, or straining contaminants out of your products. Made of high molecular weight high density polyethylene. 5 gallon are 25 mil thick, 55 gallon are 28 mil thick. They come with a center mesh in ultra fine, fine, medium, or coarse for use with a wide variety of products. 55 gallon are made for metal drums but will fit a plastic drum with an ID of 22". 5 gallon will fit both metal and plastic pails.

### Drum Top Workstation

Easy to install and use, fits 55 gallon steel tight-head drums, and works with all types of rotary drum pumps. Made of durable, non-corrosive poly, its molded-in raised rim helps to reduce splashes. The angled surface redirects material to the drum, and raised ribs providing a clean, flat area to place containers to be filled. 30 and 55 Gallon Drum Covers
