

Pail and Drum Pumps

When spills can't be tolerated, Pail and Drum Pumps come to the rescue. They ensure the efficient filling and emptying of a multitude of containers.

Sanitary Maintenance Pumps

Used only in commercial non-dairy, non-farm environments where personal protective equipment is required and OSHA regulations are enforced by management. Pump comes with a dip tube to reach the bottom of the container and a standard 2" adapter. The inside diameter of the hose is .52".

Hand Pumps

Constructed of FDA compliant materials and conform to regulations under CFR 21 for indirect food contact. These FDA Compliant Hand Pumps have Viton® valves and seals with a glass marble check valve and can be fitted with a wide variety of adapters to meet the openings of the various liquid containers in the market place.

Manual Drum and Pail Pump

This Vestil rotary steel drum pump is designed for dispensing and transferring liquids out of 55-gallon drums and 5-gallon pails. They are ideal for light oils, anti-freeze, and other light non-flammable and non-combustible liquids.
